

(a) Raw number of occupied squares

Correlation: 0.35; bias = 10.03

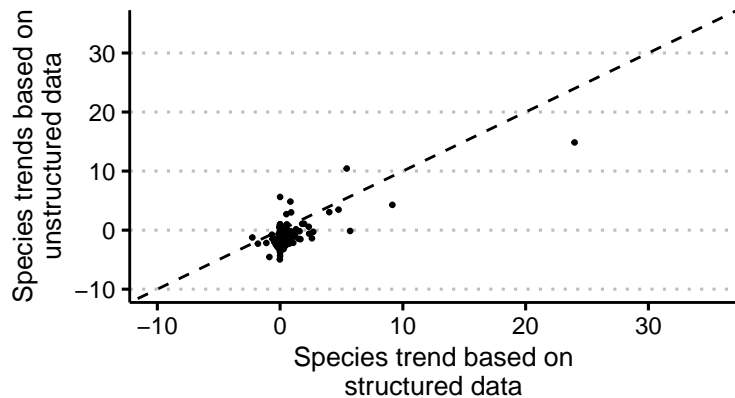

(b) Proportion of occupied squares

Correlation: 0.59; bias = -3.36

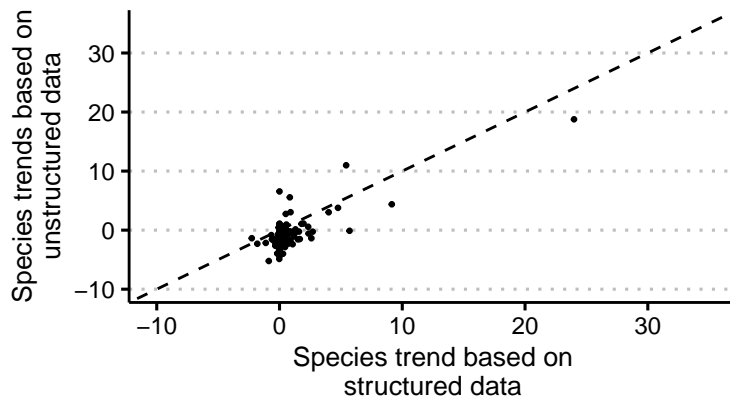

(c) Proportion of occupied squares based on reporting type

Correlation: 0.73; bias = -1.52

(d) Random year GLMM of occupied squares

Correlation: 0.77; bias = -1.54

(e) Site-occupancy model

Correlation: 0.85; bias = -0.75
